

## Class Descriptions

- **Ashtanga Yoga** participants are led through a sequence of progressive poses that link the movement with the breath. Not to be confused with Vinyasa Flow, Ashtanga Yoga follows a set sequence of poses that are practiced each class.
- **Aqua Flow** is the water version of our Mind/Body offerings. Aqua Flow fuses the practices of yoga and Pilates into one class.
- **Aqua HIIT** combines bursts of high energy movements with varying rest periods. Utilizing the water dumbbells and pool noodles, this naturally low-impact class will challenge your stamina and strength.
- **Aqua Rhythm** comfortably tones and strengthens muscles while developing coordination, improving flexibility, and building cardiovascular stamina.
- **Barre** Will empower your body and mind. Low impact movements combined with high repetitions will energize your entire body, creating long, lean and powerful muscles. Dance experience is not required.
- **Barrelates** – unifies the practice of Barre with the practice of Pilates. This low impact class will tone your body, improve your posture, and increase flexibility!
- **Cardio Barre** – Barre’s isolated, low-impact movements help target those problem areas like your core, legs and glutes! The tempo is fast so get ready to burn some calories and sweat!
- **Chair Conditioning** is specifically designed for active aging populations and those new to exercise. This class will help participants complete their activities of daily living by training the body to move in all directions, improve balance, and increase strength and flexibility.
- **Chair Yoga** is a gentle form of yoga that can be done sitting in a chair or standing on the ground using the chair for support. Benefits include increased balance, strength, flexibility, range of motion and stress reduction.
- **Fit for Life** helps participants complete their activities of daily living by training the body to move in all directions, improve balance, and increase strength and flexibility. A great option for active agers and those new to exercise.
- **Flex** reminds participants that it’s important to slow down and give your body a little TLC. Flex class helps improve your range of motion through guided stretching and breathing techniques.
- **Fusion Flow** unifies the practice of yoga with the practice of Pilates for a dynamic class to compliment any routine! This format is great for active recovery, injury prevention, or for increasing overall strength and flexibility.
- **HIIT Threat** When functional training meets High Intensity Interval Training, you’ve got HIIT Threat! Challenge your mind and body as our energetic coaches push you to find new levels of strength, cardio and conditioning!
- **Muscle Up** is a weight training class that will work every muscle in your body! Think 60 minutes of pure strength training. Modifications are offered to accommodate all fitness levels so grab those weights and muscle up!
- **Pure Pilates** Pure Pilates allows you to work the deepest layers of core muscles, which help to stabilize and support your spine and pelvis – improving posture, balancing muscle imbalances and increasing overall core strength.
- **Rhythm Ride** – When words fail, music speaks! Let the music be your guide in Rhythm Ride. A 45-minute high intensity interval-based indoor cycling class that pushes your limits and leaves you wanting more. More resistance! More sweat! More life!
- **Step Fusion** - jab, jab, punch, kick! This high energy cardio class is guaranteed to burn calories and leave you sweating! A great challenge for the conditioned athlete and those new to exercise.
- **Step Revolution** - Shake up your cardio routine with this musically charged format! Great for all fitness levels, Step Revolution is a cardio classic that’s more fun than work!
- **Vinyasa Flow** - mindfully integrates movement with breath. Vinyasa Flow allows participants to explore new movements and balances, providing modifications for all.
- **Zumba** - is an energizing and internationally recognized aerobic workout that combines fast and slow rhythms, much like other interval- based classes.
